Dear Bonnie,

I can't begin to thank you for all the fun you've given me & the good times. We've had a rough way to go but we made it, didn't we? I guess there was someone up there that liked us. (no one down here did!) Remember that wonderful night Nov. 23 when it all started I know I'll never forget it. Then came Dec 23 alright! When you come to think of it it's been a pretty good year for both of us. I know we've had some fights & hurt each others feelings many times but I think we've made up for them in our own little ways. All in all we've been pretty faithful to each other I guess its been because of how much we liked each other.

Our Junior year will be something to really look forward to, the Homecoming, Coronation, Christmas & finally the Junior-Senior dance, I just want you to know that I want to go to all of these things with you because I wouldn't have any fun with anyone else (I mean that too!). I hope this year will just be the beginning of life for us together & it will last for a long time.

Loving You Always,
Patty "PRUNE"
